

Nest Box Assembly

1. Ensure that you have the six main components (front/back/sides/base & top).

2. Align the bottom of one side with the base and attach the screws.

3. Align the back panel evenly with the side and base and attach screws.

4. Attach the remaining side panel.

5. Attach the front panel.

6. Attach the roof with screws and/or hinges. Just add birds!
